(a) Elimination contest: mixed equilibrium
equilibrium CDF F(x)
spending x / V
agents
n = 2
n = 5
n = 10
n = 50
0.0
0.2
0.4
0.6
0.8
1.0
(b) Collapse risk under equilibrium play, n = 50
P(collapse after one round)
solvency margin m / V
at most one solvent
exactly one solvent
